Ochsenreiter to Run for Tech Track Team

Famous Football Star of Manual Trainers to Compete in Indoor Games.

OTHER SCHOOL NOTES

"Gene" Ochsenreiter, Tech's famous football star and speedy first baseman, will be seen running under the colors of the Manual Trainers in the various meets this winter.

Ochsenreiter believes he can run as fast and heavy the weights as well as many school athletes. He has been working out for some time, and his desire tends to help his school on the track as well as playing the leading role in many a football and basketball game.

What we have seen of the present-day schoolboy sensation leads us to believe that he is not content with the honors he has won in the spring and fall seasons. He will prove a big asset. He is undoubtedly fast, owns a nifty (several) trick, and is a good runner. He is a good runner, and his desire tends to help his school on the track as well as playing the leading role in many a football and basketball game.

Following an examination of his school record, Mr. Sheehan has announced that he will not run for the Tech track team this winter. Sheehan's physician has advised that he should rest for at least three months, and the speedy marvel intends to act accordingly in his instructions.

There is, however, a chance for Sheehan to run in the spring meet in that his ankle will probably be well healed at that time. Sheehan has made known his intention to run for the Tech team as a candidate for the baseball team later on in the year. He is a ball player of no mean ability and is expected to play materially in Tech's hopes for the title.

Doctor William R. Hudson is very enthusiastic over the appearance of interest in basketball, and seems to be taking place in the local schools. Hudson has been acting in the capacity of physical instructor in the local schools for quite a while and is at present in charge at a business and Tech. He is directly responsible for the system of basketball now in vogue in the schools, and while he has been working hard toward this end, he is succeeding considerably. It is due to the work of Hudson more than to any other cause, that
